

Agenda at a Glance

Agenda as of March 28, 2017, and subject to change

MONDAY
JUNE 12

7:00 a.m.	Registration										
7:45 a.m.	General Attendee Breakfast CISO Circle Power Breakfast: 2017 CIO Agenda — A Security and Risk Management Perspective										
9:00 a.m.	Opening Keynote Manage Risk. Build Trust. Embrace Change.										
9:45 a.m.	Welcome Remarks										
PROGRAMS	Chief Information Security Officer (CISO) Program	Security Trends and Capabilities Program			TechInsights: Security Architecture Program	Risk Management and Compliance Program		Business Continuity Management (BCM) Program	Marketplace for Security Program	Workshops End Users Only	
10:30 a.m.	Gartner Essentials: Top Security Predictions/ Strategic Planning Assumptions for 2017	State of the Threat Landscape 2017	State of Mobile Security 2017: From the Fire to the Frying Pan	The State of IAM	Endpoint Detection and Response (EDR) Tool Architecture and Operations Practices	State of Risk Management 2017	Privacy Pressures: Attack the GDPR Before It Attacks You!	State of Business Continuity Management for Business Resilience 2017	State of the Security Markets	Designing Your API Security Policy (10:00 – 11:30 a.m.)	
11:30 a.m.	Solution Provider Sessions										
12:15 p.m.	CISO Circle Lunch: Creating a Risk-Engaged Culture That Is Ready for Anything										
12:15 p.m.	GTP Lunch										
12:15 p.m.	Solution Showcase, Attendee Lunch and Dessert Reception, and Theater Presentations (Silver)										
2:15 p.m.	Extended Show Floor Time										
2:15 p.m.	Develop a Pragmatic Vision and Strategy for Digital Business Security	State of IoT and IT/OT Security 2017	Top New Technologies and Cool Vendors in Security 2017	Technologies for Endpoint Malware Protection: Understanding Different Protection Methods	The Evolution of Endpoint Protection Platforms and Their Effectiveness Against Advanced Attacks	Managing Technology Risk and Cybersecurity Through the Lens of Business Value	What Do You Mean You Don't Have a Risk Register?	The First 100 Days in the Life of the Business Continuity Program Manager	Top Trends in the IRMS Market	Developing, Implementing and Optimizing Security Monitoring Use Cases (2:45 – 4:15 p.m.)	How High Is the Security Bar? (2:45 – 4:15 p.m.)
2:15 p.m.	Theater Session: Enterprise Mobility Management (EMM) 2017 Magic Quadrant and Critical Capabilities				Theater Session: Magic Quadrant for Enterprise Data Loss Prevention			Theater Session: Ask the Analyst — Better Understanding HTTPS and TLS Decryption Challenges			
3:15 p.m.	Solution Provider Sessions										
4:15 p.m.	State of Security Governance 2017: Where Do We Go Next?	Network Security Challenges for 2017 and Beyond	The State of Cloud Security	Gartner Essentials: Top Cybersecurity Trends for 2017	Protecting Yourself From API Abuse in the Age of Public APIs	Propel Your Business With Digital Risk Management	Gaining Control of Unstructured Data: Reduce Risks While Deriving Value	Case Study: BCM — Recovery Exercising Best Practices	Making the Best of Analytics in the Security Marketplace		
5:15 p.m.	To the Point: Case Study — Desensitization, Red Tape and the Lack of Talent	To the Point: How to Track Transaction and User Activity Using Fraud Management Technologies	To the Point: Fitting Application Security Testing Into the SDLC	To the Point: Developing a SaaS Security Architecture	To the Point: How to Manage Application Vulnerabilities at Scale	To the Point: Are They Secure? Assessing Clouds, Partners and Suppliers	To the Point: China's New Cybersecurity Law — Five Things to Know and to Do	To the Point: Magic Quadrant — Disaster Recovery as a Service	To the Point: Shifting Delivery Models in Security — Cloud-Based Security		
5:45 p.m.	Solution Showcase Networking Reception										

TUESDAY
JUNE 13

6:45 a.m.	Registration										
7:00 a.m.	General Attendee Breakfast										
7:00 a.m.	CISO Circle Breakfast: What the CISO Needs to Know About the Blockchain										
8:15 a.m.	Guest Keynote Critical Elements to Overcoming the Impossible										
9:30 a.m.	The State of Security Behavior Management	State of Application Security 2017	State of Data Security 2017	Everything You Need to Know About the Ever-Changing DDoS Threat	How to Deploy and Operationalize User and Entity Behavior Analytics (UEBA) Tools	Managing the Security Risks of IoT Innovation	Crossfire: The Great Analog vs. Software Cybersecurity Debate	Expert Perspective: How Climate Change Affects Business Operations	Maverick Research: Welcome to Your National Internet	Avoid Headaches and Do a Privacy Impact Assessment Quick Scan (9:15 – 10:45 a.m.)	Must-Have Practices and Pitfalls for Successful Organizational Change (9:15 – 10:45 a.m.)
10:30 a.m.	Solution Provider Sessions										
11:30 a.m.	CISO Panel	Seven Deadly Myths That Will Compromise Your Ransomware Response	Countering Mobile Malware With Mobile Threat Defense	Making the Right Choices for Access Management and Single Sign-On	Mature Your Malware Protection Architecture by Taking an Attacker's View		Manage Security and Fraud Risks in Complex Applications With SOD Controls Monitoring	Panel: The Role of Government in BCM	The Marriage of Cloud and IoT Security		
12:15 p.m.	CISO Circle Lunch: Selling Your Vision and Values — The Art of Persuasion										
12:15 p.m.	Solution Showcase, Attendee Lunch and Dessert Reception, and Theater Presentations (Silver)										
2:30 p.m.	Extended Show Floor Time										
2:30 p.m.	Theater Session: Threat Intelligence — Cutting Through the Hype to Realize Opportunities for Your Organization					Theater Session: Magic Quadrant for Intrusion Prevention Systems					
2:30 p.m.	Maverick Research: Disband Your Security Team Now!	Digital Trust: The New Frontier? Enabling Agile Risk Management for Digital Business	State of Security Monitoring and Analytics 2017	Enhancing Data Loss Prevention, Dealing With Ransomware: Why Identity and Data Security Need to Converge	Critical Security Capabilities of Office 365	Case Study: The Dutch Police's Risk-Based Approach	Security Considerations and Best Practices for Securing Containers	Case Study: State Street Bank's Approach to BCM Risk Appetite	Understanding Differentiation and Capitalizing on Positioning Statements	Jump-Start Your Security Awareness Program (2:30 – 4:00 p.m.)	Recovering Your Business After a Targeted Cyberattack (2:30 – 4:00 p.m.)
3:30 p.m.	Solution Provider Sessions										
4:45 p.m.	Keynote Four Scenarios That Will Change IT Forever										
5:30 p.m.	Hospitality Suites										

Agenda at a Glance (continued)

Agenda as of March 28, 2017, and subject to change

PROGRAMS	Security Trends and Capabilities Program			TechInsights: Security Architecture Program	Risk Management and Compliance Program			Business Continuity Management (BCM) Program	Marketplace for Security Program	Workshops End Users Only		
	6:45 a.m.	Registration										
7:00 a.m.	General Breakfast											
7:00 a.m.	CISO Circle Power Breakfast: When IoT Comes to Your Door, Be Ready											
8:15 a.m.	Guest Keynote The Cyberthreat: Security Solutions for a Rapidly Changing World											
9:45 a.m.	Storytelling Compels Risk and Security Awareness	Scale Information-Centric Security From Internal Operations to Business Partners and Beyond	New Network-Based Approaches for Advanced Threat Defense	The Benefits of Central Log Management for Security Operations	Applying Deception for Threat Detection and Response	Risk and Trust Culture Are Broken — Here's How to Fix Them	Leveraging Best Practices From the Disciplines of Privacy and Business Continuity Management to Improve Security	Why Are RTO and RPO Always Treated as Interdependencies?	Market Opportunity Map: Security	Use a Balanced Scorecard to Demonstrate Security's Value (9:45 – 11:15 a.m.)	How to Maximize Value in Firewall Contract Negotiations	
10:45 a.m.	Solution Provider Sessions											
11:45 a.m.	To the Point: Confront the Cybersecurity Talent Shortage	To the Point: Beat the Odds — Plan for Success With Identity Governance and Administration	To the Point: How to Secure Your Most Sensitive Applications With App Shielding	To the Point: Absolute Identity Proofing Is Dead; Use Dynamic Identity Assessment Instead	To the Point: Building a (Big)-Data-at-Rest and In-Use Security Architecture	To the Point: Address Cybersecurity in Assets You Don't Own or Control		To the Point: The Incident Response Continuum — Overview	To the Point: Are Cloud Providers Becoming Security Vendors?			
12:15 p.m.	CISO Circle Lunch: How to Build Your Own Security Analytics Capability											
12:15 p.m.	Solution Showcase, Attendee Lunch and Dessert Reception, and Theater Presentations (Silver)											
2:15 p.m.	The Digital Security Organization Needed for IoT Innovation	The Art of Deception and Its for Lean-Forward Security Programs	There Must Be 50 Ways to Lose Your Data	Lessons Learned From the Hack of the Democratic National Committee and Other Incidents	Build Your Mobile Security Strategy	Maverick Research: The Unbearable Cost of Privacy	Panel: How New Law and Regulation Can Test Your Risk and Security Practice	Challenges of End-to-End DR Testing With Modern Enterprise Application Architectures	Runtime Application Self-Protection: Prospects for Success	Writing IT Risk and Cybersecurity Service Descriptions With Business-Centric Value Statements (2:15 – 3:45 p.m.)	Incident Response Workshop: International Data Breach	
3:15 p.m.	Solution Provider Sessions											
4:15 p.m.	To the Point: Five Tests That You Must Apply to Your Security Policy	To the Point: The Life of a Packet in 2020	To the Point: Case Study — Building a Cybersecurity Program	To the Point: Utilization of Network Security Policy Management Tools in an Enterprise Network	To the Point: How to Effectively Mitigate Spoofing, Phishing, Malware and Other Email Security Threats	To the Point: One Simple Way to Get Your CEO to Embrace Risk Management	To the Point: Security in Information Governance — Align Risk, Optimization and Data Value Initiatives		To the Point: Application Vulnerability Correlation — AppSec's Missing Link	Women in IT: Exclusive Workshop for Diversity Forum		
5:00 p.m.	To the Point: Standard Security Metrics Are Raw Materials and Not the Finished Product	To the Point: The Modern Data Center Security Revolution	To the Point: Prepare for the Invasion! Here Come Smartwatches at Your Gate!	To the Point: Securing Workloads and Information in Amazon Web Services	To the Point: Exploring the Implications of Adaptive Risk and Trust	To the Point: The IT Risk Manager's First 100 Days	To the Point: Is FedRAMP a Cloud Enabler or Has It Outlived Its Usefulness?		To the Point: Keeping Your Endpoint Security Product Competitive Against Major Challengers			
6:00 p.m.	Boat Cruise											
THURSDAY JUNE 15	6:45 a.m.	Registration										
	7:00 a.m.	CISO Circle Breakfast: How to Build and Mature an Application Security Program for Waterfall and Agile SDLCs										
	7:00 a.m.	General Breakfast										
	8:00 a.m.	Keynote Treat Cybersecurity Like a Business Function										
	9:15 a.m.	Solution Provider Sessions										
	10:15 a.m.	How to Teach Your Organization to Think Strategically About Security	Gartner Essentials: Aligning Security and Risk Management With the Bimodal Enterprise	API Security: Balancing Openness and Protection	The Future of Application Security Testing	How to Build and Operate a Modern SOC	Value (for) Your Clients: A Privacy Relation to Consent and Analytics	Survey Results: Gender Diversity in Security and Risk Management	Making the Right Recovery and Continuity Sourcing Decisions		Experiences From Implementing Mobile Identity (10:15 – 11:45 a.m.)	
	11:15 a.m.	To the Point: TBA	To the Point: Expert Perspective — Security and Medical Devices	To the Point: Use a Single Brand of Firewall Strategy for Better Security	To the Point: Don't Treat Your Customer Like a Criminal — Building Trust Through Behavioral Analytics	To the Point: CASBs, CASBs Everywhere ... Which One Do I Need to Protect My SaaS Solutions?	To the Point: 10 Strategies to Make Your Organization's Security Certification Useful	To the Point: Case Study — Perspectives of IT Professionals and Risk Managers on Cyber Risk	To the Point: The Incident Response Continuum — Best Practices	To the Point: Preparing for Disruptions in Security and User and Entity Behavior Analytics Platforms		
	12:00 p.m.	To the Point: Security Scenario 2025 — Outrageous Intelligence	To the Point: Market Guide for Data Classification	To the Point: How to Respond to PCI DSS v.3.2	To the Point: Understanding the UEBA Landscape	To the Point: How to Foster an Application Security Culture With Training and Gamification	To the Point: TBA	To the Point: IT Risk Management Solutions — Setting Right Expectations — How Not to Put the Cart Before the Horse	To the Point: Gender Diversity in BCM — The 2017 Association of Contingency Planners/ Gartner Survey Results	To the Point: What's Happening in Managed Security Services?
