Gartner clients have access to a terabyte of continually updated market data, covering 2,000 vendors across 175 technology markets in 100 countries.

End users, technology providers and investors use Gartner Hype Cycles to track and monitor the commercial viability of over 2,000 technologies in 122 IT, business and consumer markets.

Gartner clients continually monitor their provider portfolios with the Gartner Magic Quadrant, a methodology that has become a standard for market analysis in 155 technology segments.

The Wall Street Journal, The Economist and The Financial Times, along with more than 30 other leading business publications worldwide, consider Gartner a trusted, independent source. They quote us an average of 70 times every week.

74% of the Fortune 1000 and 75% of the Global 500 support their key technology decisions with Gartner advice. These varied and worldwide connections produce insights that benefit all our clients.

Gartner analysts had nearly 18,000 briefings with more than 3,000 distinct vendors in the past 12 months, helping IT buyers, sellers and investors make the right decisions about their investments in markets, products and customers.

Clients improve business performance by benchmarking their spending and best practices against our IT performance repository, the largest in the industry, drawing on more than 5,000 IT benchmarks a year.

Clients use gartner.com and our various product portal sites to easily access our insight for help in making both daily and long-term decisions. Each year, thousands of active users search 113,760 documents across 1,253 technology and business topics on our websites.

Multinational clients get consistent global insight from an analyst community that speaks 50 languages.
