

# Contents

<b>1.0</b>	<b>Introduction and Executive Overview .....</b>	<b>1</b>
1.1	Research Elements Used in This Report .....	3
1.1.1	Probabilities Defined .....	3
1.1.2	Type A, B and C Enterprises .....	3
1.1.3	The Gartner Magic Quadrant .....	4
1.2	Critical Issues for Today's IT Asset Managers .....	6
1.3	Moving From Cost-Centric to Value-Focused IT Management .....	7
1.4	IT Asset Management: Bridging the Gap Between Vision and Practice .....	9
1.5	Life Cycle Management: Planning for Success .....	11
1.6	Measuring the Performance of an IT Asset Management Program .....	12
1.7	Sound Processes for IT Asset, Change and Configuration Management .....	14
1.8	Beyond Sarbanes-Oxley: Risk, Compliance and Transparency .....	16
1.9	Chargeback Challenges: From Processes to Politics .....	17
1.10	How to Gain the Best Value From IT Leasing and Financing .....	19
1.11	Keys to Effective Procurement Contract Management .....	21
1.12	Telecom Expense Management: Evaluating the Options .....	23
1.13	Cutting Costs and Boosting ROI Through Mobile and Wireless Management .....	24
1.14	Server Consolidation: Benefits and Best Practices .....	26
1.15	Deploying PCs for the Life Cycle .....	28
1.16	Client Computing Best Practices .....	30
1.17	Managing Diversity for PCs and Other Client Devices .....	32
1.18	Navigating the Client Operating System Road Map .....	34
1.19	Weighing the Pros and Cons of Changing Software Licensing Models .....	37
1.20	Effective Techniques for Negotiating Software License Agreements .....	38
1.21	Best Practices for Managing Microsoft Licenses .....	40
1.22	How to Avoid Software Compliance Problems and Prepare for Audits .....	42
1.23	Retiring IT Assets: Don't Forget the Software .....	45
<b>2.0</b>	<b>Critical Issues for Today's IT Asset Managers .....</b>	<b>47</b>
2.1	Controlling Costs Through IT Asset Management .....	47
2.1.1	Price Negotiations .....	48
2.1.2	Additional Services .....	49
2.1.3	IT Complexity .....	49
2.1.4	Procurement Services .....	49
2.1.5	The IT Asset Management Life Cycle .....	50
2.2	Compliance and IT Asset Management .....	50
2.2.1	Government Regulations .....	50
2.2.2	Assessing Processes and Procedures .....	51
2.2.3	The Need to Train Users of IT Assets .....	51
2.2.4	Preventing Security Breaches From Within the Enterprise .....	52
2.2.5	The Need for Internal Standards .....	52

- 2.3 The Importance of IT Asset Management to CIOs ..... 53
  - 2.3.1 The Changing Role of the IS Organization ..... 53
  - 2.3.2 Skills IT Asset Managers Will Need ..... 54
  - 2.3.3 Key Challenges Ahead for IT Asset Managers ..... 54
- 2.4 Conclusions ..... 55
- 3.0 Moving From Cost-Centric to Value-Focused IT Management ..... 57**
  - 3.1 Evaluating IT Investments ..... 58**
    - 3.1.1 How Cross-Functional Organizational Models Affect IT Services ..... 58
    - 3.1.2 The Three Main Sources of IT Value ..... 59
    - 3.1.3 The Use of Benchmarking ..... 59
    - 3.1.4 A Case Study in IT Benchmarking ..... 59
  - 3.2 Steering Clear of Pitfalls That Affect Financial Performance ..... 60**
    - 3.2.1 Understanding Levels of IT Spending ..... 60
    - 3.2.2 Baseline IT Spending ..... 61
    - 3.2.3 Underestimating IT Spending ..... 62
    - 3.2.4 Underestimating the Ongoing Costs of Applications ..... 62
    - 3.2.5 Expect More IT Spending From Outside the IT Budget ..... 63
    - 3.2.6 Controlling Short- and Long-Term Costs ..... 63
  - 3.3 Making the Transition to Value-Focused IT Management ..... 63**
    - 3.3.1 Common Barriers to IS Organization Credibility ..... 63
    - 3.3.2 The Importance of Stakeholder Influence ..... 64
    - 3.3.3 Assessing the Business Value of IT ..... 65
    - 3.3.4 Changing Perceptions About the Value of IT ..... 65
  - 3.4 Recommendations ..... 66**
- 4.0 IT Asset Management: Bridging the Gap Between Vision and Practice ..... 67**
  - 4.1 Toward Making IT Asset Management a Reality ..... 68**
    - 4.1.1 Identifying the Gaps ..... 68
    - 4.1.2 Gartner’s IT Asset Management Maturity Model ..... 69
    - 4.1.3 The Building Blocks of IT Asset Management ..... 70
    - 4.1.4 Building a Solid Business Case ..... 71
    - 4.1.5 Quick Successes Help Prove the Business Value ..... 71
    - 4.1.6 The IT Asset Management Implementation Plan ..... 72
  - 4.2 Proving IT Asset Management’s Value ..... 73**
    - 4.2.1 Using a Staged Approach ..... 73
    - 4.2.2 The Inevitable Rise of New Gaps ..... 74
    - 4.2.3 Comparing Goals and Performance ..... 75
    - 4.2.4 The Need for Regular Program Reviews ..... 76
  - 4.3 IT Asset Management Best Practices ..... 76**
    - 4.3.1 Planning for Change ..... 77
    - 4.3.2 IT Asset Management as a Service ..... 77
    - 4.3.3 Driving Business Value With IT Asset Management ..... 78
  - 4.4 Recommendations ..... 78**
- 5.0 Life Cycle Management: Planning for Success ..... 79**
  - 5.1 Key Considerations of Life Cycle Management ..... 79**
    - 5.1.1 The Five Stages of the Managed IT Asset Life Cycle ..... 80
      - 5.1.1.1 Stage 1: Requisition ..... 81
      - 5.1.1.2 Stage 2: Procurement ..... 81
      - 5.1.1.3 Stage 3: Deployment ..... 81

5.1.1.4	Stage 4: Maintenance .....	81
5.1.1.5	Stage 5: Retirement .....	82
5.1.2	Flexibility for Change .....	82
<b>5.2</b>	<b>Managing for Lower TCO Throughout the Life Cycle .....</b>	<b>83</b>
5.2.1	Categorizing the IT Portfolio .....	83
5.2.2	Defining Requirements and Procurement Strategies .....	84
5.2.3	Deployment Strategies .....	84
5.2.4	Determining Whether to Upgrade .....	85
5.2.5	Maintenance Strategies .....	85
5.2.6	PC Disposal Costs .....	86
<b>5.3</b>	<b>Strategies for Surplus Equipment .....</b>	<b>87</b>
5.3.1	Disposal Risks .....	87
5.3.2	Disposal Options .....	87
5.3.2.1	Charitable Contributions .....	88
5.3.2.2	Employee PC Sales or Gifts .....	88
5.3.2.3	Brokered Sales or Auctions .....	88
5.3.2.4	Trade-ins .....	88
5.3.3	Outsourcing as a Recommended Disposal Option .....	88
5.3.4	The Market for IT Asset Disposition .....	89
5.3.5	Choosing a Vendor for IT Asset Disposition .....	90
<b>5.4</b>	<b>Recommendations .....</b>	<b>91</b>
<b>6.0</b>	<b>Measuring the Performance of an IT Asset Management Program .....</b>	<b>93</b>
<b>6.1</b>	<b>Important Factors Influencing Performance Measurement .....</b>	<b>94</b>
6.1.1	Performance Measurement: 10 Key Points .....	94
6.1.2	The Role of Standards .....	94
6.1.3	Allocating Resources .....	95
6.1.4	Considering All Life Cycle Costs .....	95
<b>6.2</b>	<b>Evaluating the Performance of an IT Asset Management Program .....</b>	<b>95</b>
6.2.1	Creating a Formalized Performance Management Program .....	95
6.2.2	Performance Management Tools .....	96
6.2.3	Volume and Process Metrics .....	96
<b>6.3</b>	<b>Scorecards That Deliver Results .....</b>	<b>98</b>
6.3.1	Linking Metrics to Outcomes .....	98
6.3.2	Using a Scorecard to Help Measure Performance .....	99
6.3.3	Using Scorecards to Manage Vendors .....	99
6.3.4	Costs and the Metrics Hierarchy .....	100
<b>6.4</b>	<b>Recommendations .....</b>	<b>101</b>
<b>7.0</b>	<b>Sound Processes for IT Asset, Change and Configuration Management .....</b>	<b>103</b>
<b>7.1</b>	<b>The Foundation for Successful Change, Configuration and Asset Management ....</b>	<b>104</b>
7.1.1	The IT Service Management Life Cycle .....	104
7.1.2	Looking to Standards .....	106
7.1.3	Aligning Work Around Processes .....	106
7.1.4	Four Essential Management Roles for a Service-Based Organization .....	107
7.1.5	Integrated — Not Interchangeable — Technologies .....	108
<b>7.2</b>	<b>Creating a Valuable IT Operations Architecture .....</b>	<b>109</b>
7.2.1	Two Fundamental Components of IT Change Management .....	109
7.2.2	The IT Asset Life Cycle Plan .....	109
7.2.3	Use Many Tools for Change Management .....	110
7.2.4	Use of Agents .....	110

- 7.2.5 Vendors and Claims of Asset Management Capabilities ..... 110
- 7.2.6 Case Study: Saving Money by Using a New IT Asset Inventory Tool ..... 111
- 7.3 Establishing Attainable Goals and Developing IT Asset Management Skills ..... 114**
- 7.3.1 Staffing an IT Asset Management Program ..... 114
- 7.3.2 Governance ..... 115
- 7.3.3 Using Metrics ..... 116
- 7.3.4 Case Study: Managing Services Using ITIL ..... 116
- 7.4 Recommendations ..... 120**
- 8.0 Beyond Sarbanes-Oxley: Risk, Compliance and Transparency ..... 121**
- 8.1 Trends in Compliance Requirements ..... 122**
- 8.1.1 The Global Compliance Hype Cycle ..... 122
- 8.1.2 Compliance Isn't About Technology ..... 123
- 8.1.3 Underusing Technology When Managing Compliance ..... 123
- 8.1.4 Seven Elements of Effective Compliance ..... 124
- 8.2 Using Gartner's COMPARE Framework ..... 125**
- 8.2.1 Stage 1: Sense ..... 125
- 8.2.2 Stage 2: Assess ..... 125
- 8.2.3 Stage 3: Reconcile ..... 126
- 8.2.4 Stage 4: Remediate ..... 126
- 8.2.5 Stage 5: Attest ..... 127
- 8.2.6 Closing the Loop: Stage 1 Revisited ..... 127
- 8.3 Organizing the Compliance Effort ..... 127**
- 8.3.1 An Organized Approach to Risk Management ..... 128
- 8.4 Optimizing Compliance Efforts and Investments ..... 129**
- 8.4.1 Sarbanes-Oxley Compliance: Costs and Opportunities ..... 129
- 8.4.2 Building Business Benefits Through a Consistent Approach to Compliance ..... 130
- 8.4.3 Investing for Long-Term Benefits ..... 131
- 8.4.4 The Foundation for a Compliance Architecture ..... 132
- 8.4.5 Designing an Enterprise Compliance Architecture ..... 133
- 8.4.6 The Weather Bureau: Helping Predict and Prepare for the Future ..... 134
- 8.5 Conclusions and Recommendations ..... 134**
- 9.0 Chargeback Challenges: From Processes to Politics ..... 137**
- 9.1 Making Chargeback Work Correctly ..... 138**
- 9.1.1 Start With the Chart of Accounts ..... 138
- 9.1.2 The Level of Benchmarking Necessary for Chargeback ..... 138
- 9.2 Determining the Most Appropriate Chargeback System ..... 139**
- 9.2.1 Seven Common Chargeback Methods ..... 140
- 9.2.2 Low-Level Allocation ..... 141
- 9.2.3 Transaction-Based or Measured Resource Usage ..... 141
- 9.2.4 Using a Range of Chargeback Methods ..... 142
- 9.2.5 Arguments About Chargeback Systems Never Really Go Away ..... 142
- 9.3 Managing Organization and Governance Issues ..... 144**
- 9.3.1 Determining Chargeback Process Roles and Responsibilities ..... 144
- 9.3.2 The Chargeback Committee ..... 144
- 9.3.3 Look to the Finance Organization ..... 145
- 9.3.4 Using a Contingency Model for Pricing Risk ..... 146
- 9.3.5 Managing Over- and Under-Recovered Costs ..... 147
- 9.4 Recommendations ..... 147**

<b>10.0</b>	<b>How to Gain the Best Value From IT Leasing and Financing .....</b>	<b>149</b>
10.1	Leasing and Financing Trends and Directions .....	150
10.1.1	The Three Main Sources of Traditional Leases .....	150
10.1.2	Capacity-on-Demand and Utility Offerings .....	150
10.1.3	Important Differences Between Operating and Capital Leases .....	151
10.2	Leasing and Financing Best Practices .....	152
10.2.1	Upgrade or Refresh Options .....	152
10.2.2	Lease Analysis .....	154
10.2.3	End-of-Lease Portfolio Outcomes .....	155
10.3	Choosing Lessors and Managing Lease Contracts .....	156
10.3.1	What to Consider When Evaluating Lessors .....	156
10.3.2	Planning for and Managing Change .....	156
10.3.3	Negotiating Contract Terms and Conditions .....	157
10.3.4	Linking Leasing to IT Asset Management .....	157
10.3.5	Seven Steps to End-of-Lease Success .....	158
10.3.6	Eight Steps in Managing Returns of End-of-Lease Equipment .....	159
10.3.7	Best Practices in Lease Management .....	159
10.4	Recommendations .....	160
<b>11.0</b>	<b>Keys to Effective Procurement Contract Management .....</b>	<b>161</b>
11.1	Factors Influencing Contract Management and Procurement .....	162
11.1.1	Sourcing and Transaction Management .....	162
11.1.2	Procurement Contract Management's Role in New Products and Services .....	163
11.1.3	The Influence of Sarbanes-Oxley .....	163
11.1.4	Five Types of Contracts .....	164
11.1.5	The Scope of Contract-Related Documents and Records .....	164
11.2	The Important Parts of Contract Management Applications .....	165
11.2.1	Finding and Managing Contract Information Through Content and Document Management .....	166
11.2.2	Procurement Office Planning .....	166
11.2.3	The Pending Merger of E-Sourcing and Contract Management Functionality .....	167
11.2.4	Clause Libraries and Contract Configurators .....	167
11.2.5	Reconciling Terms and Conditions .....	168
11.2.6	Tracking Supplier Performance .....	168
11.3	Procurement Contract Management Vendors .....	168
11.3.1	Where Vendors Are Focusing .....	168
11.3.2	The Contract Management Squeeze Play .....	169
11.4	Recommendations .....	170
<b>12.0</b>	<b>Telecom Expense Management: Evaluating the Options .....</b>	<b>171</b>
12.1	TEM Needs and Offerings .....	172
12.1.1	Pressures Affecting Management of the Network .....	172
12.1.2	TEM's Impact on Small and Midsize Businesses .....	172
12.1.3	The TEM Needs Assessment .....	172
12.1.4	Identifying TEM Offerings .....	173
12.1.5	The TEM Market Forecast .....	173
12.1.6	Delivery Models for TEM Offerings .....	174
12.2	TEM Vendors .....	175
12.2.1	The Four Types of Vendors in the TEM Market .....	176
12.2.2	The Evolution of the TEM Market .....	176

12.3	<b>Key Considerations for Evaluating TEM Offerings .....</b>	<b>177</b>
12.3.1	Cost Reductions From TEM .....	177
12.3.2	TEM Pricing .....	177
12.3.3	Using a TEM Evaluation Model .....	178
12.3.4	TEM Technology Requirements .....	178
12.3.5	Aligning Business and IT .....	179
12.4	<b>Recommendations .....</b>	<b>180</b>
<b>13.0</b>	<b>Cutting Costs and Boosting ROI Through Mobile and Wireless Management .....</b>	<b>181</b>
13.1	<b>Managing Laptops and Small Devices .....</b>	<b>182</b>
13.1.1	Framework Solutions .....	182
13.1.2	Microsoft's System Management Server .....	182
13.1.3	Mobile Management and Security Products .....	183
13.1.4	Three Mobile Management Scenarios .....	183
13.2	<b>The Role of TCO in Guiding Management Decisions .....</b>	<b>184</b>
13.2.1	The Benefits of TCO Measurement .....	185
13.2.2	Complexity and TCO .....	185
13.3	<b>Management Best Practices .....</b>	<b>186</b>
13.3.1	Develop a Personal Device Policy .....	186
13.3.2	Manage Configuration Controls .....	187
13.3.3	Operate a Backup-and-Restore Method .....	187
13.3.4	Manage Mobile/Wireless Work Styles .....	188
13.3.5	Manage Mobile Configurations and Cost .....	188
13.3.6	Embrace Architectural Diversity .....	189
13.4	<b>Recommendations .....</b>	<b>189</b>
<b>14.0</b>	<b>Server Consolidation: Benefits and Best Practices .....</b>	<b>191</b>
14.1	<b>Drivers of the Server Consolidation Trend .....</b>	<b>192</b>
14.2	<b>Cost Savings and Other Benefits .....</b>	<b>193</b>
14.2.1	Survey Feedback on Cost Savings .....	194
14.2.2	Major Factors Affecting Server Consolidation Savings .....	195
14.3	<b>Avoiding Pitfalls and Applying Best Practices .....</b>	<b>195</b>
14.3.1	Planning for Problems .....	195
14.3.2	Learning From the Success of Others .....	197
14.3.3	Building Detailed Asset Inventories .....	197
14.3.4	Setting Expectations .....	198
14.3.5	Overcoming Political Resistance .....	198
14.3.6	Planning for Forward Consolidation .....	199
14.4	<b>Strategic Considerations .....</b>	<b>199</b>
14.4.1	Vendor Strategies .....	200
14.4.2	The Emergence of Server Virtualization .....	200
14.5	<b>Recommendations .....</b>	<b>202</b>
<b>15.0</b>	<b>Deploying PCs for the Life Cycle .....</b>	<b>203</b>
15.1	<b>Factors Influencing Windows Migrations and PC Deployments .....</b>	<b>204</b>
15.1.1	The Need for Managed Diversity .....	204
15.1.2	Using the Right Combination of Tools .....	204
15.2	<b>Offerings That Can Make Migrations and Deployments Easier .....</b>	<b>205</b>
15.2.1	Microsoft Desktop Management Technologies .....	205
15.2.2	Deployment and Life Cycle Management Tools .....	205

15.2.3	Deploying System Images .....	207
15.2.4	Personality Transfer Software Vendors .....	207
15.2.5	Software Distribution Tools .....	207
15.2.6	Packaging Application Tools .....	208
<b>15.3</b>	<b>Deployment and Migration Best Practices .....</b>	<b>208</b>
15.3.1	Reducing the Number of Images .....	209
15.3.2	Lockdown .....	209
	15.3.2.1 The Different Types of Lockdown .....	209
	15.3.2.2 The Many Steps to Lockdown .....	211
15.3.3	Packaging Efforts .....	212
15.3.4	Centralization .....	212
<b>15.4</b>	<b>Conclusions and Recommendations .....</b>	<b>212</b>
<b>16.0</b>	<b>Client Computing Best Practices .....</b>	<b>215</b>
16.1	Planning PC Life Spans .....	216
16.2	Reducing Client Computing TCO .....	217
16.2.1	Notebook TCO .....	217
16.2.2	Wireless WAN TCO .....	217
16.2.3	To Reduce TCO, Leverage Best Practices .....	218
16.3	Best Practices for Client Computing .....	219
16.3.1	Implementing Desktop Lockdown .....	219
16.3.2	Evaluating PC Vendors .....	220
16.3.3	Hardware Vendor Standardization .....	220
16.3.4	IT Asset Management .....	220
16.3.5	Patch Management .....	221
16.3.6	Integrating IT Asset Management and IT Support .....	222
16.3.7	PC Staffing Levels .....	224
16.3.8	Securing Wireless LANs .....	224
16.3.9	Image Management .....	224
16.3.10	Developing Policies .....	225
16.4	Conclusions .....	225
<b>17.0</b>	<b>Managing Diversity for PCs and Other Client Devices .....</b>	<b>227</b>
17.1	The Changing Role of Client Computing .....	228
17.1.1	New Classes of Users Will Emerge .....	228
17.1.2	Implications of Desktop and Laptop Convergence .....	229
17.1.3	Client Device Choices .....	229
17.1.4	Life Cycle Planning and Equipment Procurement Processes .....	230
17.1.5	Mobile Devices Will Be Crucial But Tactical .....	231
17.2	Pending Technology Changes .....	232
17.2.1	Processing and Storage Capabilities .....	232
17.2.2	Personalization .....	233
17.2.3	PCI Express .....	233
17.3	Pending Market Changes .....	233
17.3.1	Image and Platform Stability .....	233
17.3.2	Managing Migration Costs .....	234
17.3.3	The Migration to Longhorn .....	234
17.3.4	Using Virtual Machines to Manage Images and Ease Migrations .....	235
17.3.5	Problems and Costs Related to PC Disposal .....	236
17.4	Recommendations .....	236

<b>18.0</b>	<b>Navigating the Client Operating System Road Map .....</b>	<b>237</b>

19.2.2	The Move Away From Perpetual Licensing .....	256
19.2.3	Aligning Software Licensing With the Strategic Plan .....	256
19.2.4	The True Value of Changing Metrics .....	256
19.2.5	The Case for Virtualization .....	257
19.2.6	Paying for Virtualization .....	258
19.3	Avoiding Surprise Licensing Costs .....	258
19.3.1	Point Deals .....	258
19.3.2	Characteristics of a Good Software Licensing Agreement .....	259
19.4	Recommendations .....	260
<b>20.0</b>	<b>Effective Techniques for Negotiating Software License Agreements .....</b>	<b>261</b>
20.1	Key Considerations for Software License Negotiations .....	262
20.1.1	The Need to Document Vendor Promises .....	262
20.1.2	Determining Fair Value .....	262
20.1.3	Vendor Viability .....	262
20.1.4	Planning for Mergers and Acquisitions .....	263
20.1.5	Negotiation Teams and Roles .....	263
20.1.6	Using Software Negotiators .....	264
20.1.7	Ways Vendors Try to Get More Revenue From Customers .....	265

20.2 Pitfalls to Avoid in a Software License Agreement .....	265
20.2.1 Software Licenses That Use Business Metrics .....	266
20.2.2 Maintenance and Caps .....	266
20.2.3 Maintenance and Support Entitlements .....	266
20.3 Avoiding Problematic Contract Terms and Clauses .....	267
20.3.1 Charges for Changes in Technology .....	268
20.3.2 Fees for Reinstating Maintenance .....	268
20.3.3 Reduced Use .....	269
20.3.4 Mergers, Acquisitions and Divestitures .....	269
20.3.5 Indemnification Clause .....	269
20.3.6 Order Form Problems .....	270
20.4 Recommendations .....	271
<b>21.0 Best Practices for Managing Microsoft Licenses .....</b>	<b>273</b>
21.1 Step 1: Review and Document Microsoft License Rights Owned .....	274
21.2 Step 2: Review Microsoft Product Installations .....	275
21.3 Step 3: Review Microsoft Product Road Map Information .....	276
21.3.1 Windows and Office Milestones .....	277
21.4 Step 4: Apply Microsoft's Published Support Life Cycles to the License Rights Owned .....	278
21.5 Step 5: Develop or Review Your Strategy for the Deployment of License Rights ...	280
21.6 Step 6: Review SA Offerings to Determine Their Value to the Organization .....	280
21.7 Step 7: Review Risks Posed by Not Renewing the Organization's EA .....	282
21.8 Step 8: Review Your License Management Strategy for All EA Component Products .....	283
21.8.1 Windows Client OS Upgrade — Managed Diversity .....	283
21.8.2 Microsoft Office .....	284
21.8.3 Core or BackOffice CALs .....	285
21.9 Step 9: Review Best-Practice Leverage Points Before Negotiating With Microsoft .....	285
21.10 Recommendations .....	286
<b>22.0 How to Avoid Software Compliance Problems and Prepare for Audits .....</b>	<b>287</b>
22.1 Gauging the Risk of Noncompliance .....	288
22.1.1 Why Compliance Is More Important Now Than Ever .....	288
22.1.2 Reasons for Noncompliance .....	289
22.1.2.1 Intentional Noncompliance .....	289
22.1.2.2 Untracked Software Purchases .....	289
22.1.2.3 Inaccurate Software Vendor or Reseller Records .....	290
22.1.2.4 Unclear Software Usage Rights .....	290
22.1.2.5 Application-Specific License Problems .....	291
22.1.2.6 Vendor-Sent Unlicensed Software .....	291
22.2 Establishing Audit Rights .....	292
22.2.1 Audits: By Whom, and When .....	292
22.2.2 How an Audit Is Conducted .....	293
22.2.3 After the Audit Is Complete .....	294
22.2.4 When an Audit is Imminent — 10 Key Steps .....	294
22.3 Where License Models Can Go Wrong .....	295
22.3.1 Concurrent License Models .....	296

- 22.3.2 Named-User License Models ..... 297
- 22.3.3 Per-Module Models ..... 297
- 22.3.4 Transaction-Based Models ..... 297
- 22.3.5 Revenue- and Employee-Based Models ..... 297
- 22.3.6 Role-Based Models ..... 298
- 22.3.7 Server-Based Models ..... 298
- 22.3.8 Application-Specific Models ..... 298
- 22.4 The Importance of Software Asset Management ..... 299**
- 22.5 Recommendations ..... 299**
- 23.0 Retiring IT Assets: Don't Forget the Software ..... 301**
- 23.1 Valuable Procedures for Proper Software Disposal ..... 302**
- 23.1.1 PC Disposal Options and Software Compliance Issues ..... 302
  - 23.1.1.1 PC Sales or Gifts to Employees ..... 302
  - 23.1.1.2 Auctions and Sales to Brokers ..... 302
  - 23.1.1.3 Making a Charitable Contribution ..... 303
  - 23.1.1.4 Outsourcing ..... 303
  - 23.1.1.5 Destroying Old or Unused Software ..... 304
- 23.1.2 PC Disposal and Software Audit Risks ..... 304
- 23.1.3 Transferring a Microsoft Operating System ..... 305
- 23.1.4 A Software Compliance Policy ..... 305
- 23.1.5 A Software Disposal Policy ..... 306
- 23.1.6 A Case Study in PC and Software Disposal ..... 307
- 23.2 How Virtual Warehouses Can Make Software Asset Management Easier ..... 308**
- 23.2.1 A Case Study of a Virtual Software Warehouse ..... 308
- 23.3 Key Considerations Regarding the Sale of Used Software ..... 309**
- 23.4 Recommendations ..... 310**
- Appendix A: Hype Cycle for IT Operations Processes and Tools ..... 311**
- A.1 On the Rise ..... 312
- A.2 At the Peak ..... 315
- A.3 Sliding Into the Trough ..... 316
- A.4 Climbing the Slope ..... 317
- A.5 Entering the Plateau ..... 317
- Appendix B: Desktop Software Distribution Magic Quadrant, 2004 ..... 319**
- B.1 Software Distribution Evaluation Criteria ..... 320**
- B.1.1 The Completeness of Vision Axis ..... 321
- B.1.2 Ability to Execute Axis ..... 321
- B.1.3 The Evaluation Shortlist ..... 321
- B.2 The Vendors Examined ..... 322**
- B.2.1 Niche Players ..... 322
- B.2.2 Challengers ..... 323
- B.2.3 Visionaries ..... 323
- B.2.4 Leaders ..... 323
- B.3 Conclusions ..... 324**
- Appendix C: Glossary ..... 325**
- Vendor Index ..... 335**
