Gartner Security & Risk Management Summit 2015

14 – 15 September  |  London, UK  |  gartner.com/eu/security

The World’s Most Important Gathering for Security and Risk Executives

Five Programs

• Chief Information Security Officer (CISO)
• Risk Management and Compliance
• Security Manager Program: Technology, Trends and Operations
• Business Continuity Management
• Internet of Things Security
Manage Risk and Deliver Security in a Digital World

Craft your strategy for business resiliency

Get the tools you need to deliver secure digital business environments and ensure your organization can weather an attack or disruption and bounce back quickly at Gartner Security & Risk Management Summit 2015, 14 – 15 September, London, UK. This year’s conference covers the breadth of priorities in IT security, risk management, governance, compliance, BCM, the role of the CISO, the business of security, privacy, IAM and more.

Join us this September to find out how you can advance your security and risk goals to support business objectives and improve resilience across the organization.

Key benefits of attending
- Gain tools and strategies to stay ahead of your new responsibilities and increasing threats
- Align security and risk strategies with your enterprise objectives and digital transformation
- Assure compliance with new regulatory, compliance, privacy and e-discovery requirements
- Apply the latest techniques to tackle risks in cloud, OT and IoT
- Build a culture that drives security performance through employee engagement

Who will be there?
- Chief Information Security Officers
- Chief Risk Officers
- Chief Information Officers
- IT Vice Presidents/Directors
- IT Security Officers/Directors
- Risk, Compliance and Privacy Managers
- Information Security/Risk Managers
- Network, Infrastructure, Solutions and Security Architects

Visit gartner.com/eu/security for more information
Reevaluate your security and risk strategies and investments for the digital age

Digital business technologies and the Internet of Things are creating new threats and risks even as regulatory compliance and legal risks continue to escalate, and sophisticated cyber threats challenge even the best security strategies. Every business is now a digital business, and every business must become proficient at risk assessment and mitigation, the foundation of success in the digital age.

This year’s summit delivers the latest research and recommendations across security and risk management priorities, and provides you with solutions to the latest hot topics, including:

- Application, network and infrastructure security
- Cloud security
- Mobile security
- Cybersecurity
- Digital business security and risk management
- Operational technology (OT) security and risk management
- Organizational resilience through BCM
- Risk management and compliance
- Security Awareness and Training

The intersection of IT, operational technology and the Internet of Things is spawning a new generation of threats. Join us for the latest strategies to help you anticipate risk, mitigate its impact and enable successful business outcomes.

What’s new for 2015

- Revamped agenda featuring new content, and covering key challenges such as applications, network and mobile security; security for the cloud; digital business security, risk management and privacy and EU regulations
- First ever presentation of Magic Quadrant for operational risk management
- Industry-orientated content, especially around financial services, banking and insurance
- Focused sessions on crisis and incident management
- Content tailored for small and medium businesses
- Expanded opportunity to network with your peers with networking lunches and drinks receptions available

Solution Showcase

Develop a “shortlist” of technology and service providers who can meet your particular needs. We offer you exclusive access to some of the world’s leading technology and service solution providers in a variety of settings.

Premier Sponsor

Trend Micro

As a global leader in IT security, Trend Micro develops innovative security solutions that make the world safe for businesses and consumers to exchange digital information. With over 25 years of security expertise, we’re recognized as the market leader in server security, cloud security, and small business content security. Our security is powered by Trend Micro™ Smart Protection Network™ global threat intelligence and is supported by over 1,200 security experts around the world.

www.trendmicro.co.uk

Platinum Sponsors

AirWatch by VMware

AirWatch by VMware is the leader in enterprise mobility management (EMM). We enable end users with a seamless digital workspace, and empower IT with a future-proof mobility platform that provides flexibility to manage multiple use cases, unified management of endpoints, end-to-end security, and seamless integration across enterprise systems.

www.air-watch.com

Darktrace

Darktrace is a fast-growing cyber threat defense company and world leader in Enterprise Immune System technology. Darktrace’s award-winning solution is powered by machine learning and mathematics developed at the University of Cambridge, and helping organizations defend against advanced cyber-attacks and insider threat by detecting previously-unknown anomalies in real time.

www.darktrace.com

Fortinet

Fortinet is a worldwide provider of network security appliances and a market leader in Network Security. Our products and subscription services provide broad, integrated and high-performance protection against dynamic security threats while simplifying the IT security infrastructure. Our customers include enterprises, service providers and government entities worldwide, including the majority of the 2012 Fortune Global 100.

www.fortinet.com

Qualys

Qualys (www.qualys.com) is a pioneer and leading provider of cloud security and compliance solutions with over 7,700 customers in more than 100 countries. The Qualys Cloud Platform and integrated suite of solutions help organizations simplify security operations and lower the cost of compliance, delivering critical security intelligence on demand.

www.qualys.com

Splunk

Splunk Inc. provides the leading platform for Operational Intelligence. Splunk® software searches, monitors, analyzes and visualizes machine-generated big data from websites, applications, servers, networks, sensors and mobile devices. More than 8,400 organizations use Splunk software to deepen business and customer understanding, mitigate cybersecurity risk, improve service performance and reduce costs.

Email: european.exhibits@gartner.com
Silver Sponsors

**Avecto**
Avecto is an innovative technology business specializing in endpoint security. The company’s revolutionary Defendpoint software ensures defense in depth while empowering users to work freely.
www.avecto.com

**BlackBerry**
Blackberry provides an end-to-end suite of secure mobile solutions, delivering innovative mobile technologies to users and organizations that value productivity and achievement. Learn more: www.Blackberry.com.
www.blackberry.com

**boldonjames**
For 30 years, Boldon James has been a leader in data classification solutions, helping organisations manage sensitive information securely & in compliance with legislation and standards.
www.boldonjames.com

**Certes Networks**
Certes protects data in motion. Our CryptoFlow™ Solutions safeguard sensitive applications over any network with user-aware policies that protect data when firewalls can’t stop hackers.
certesnetworks.com

**CSG Invotas**
CSG Invotas is an award-winning leader in security orchestration and automation for global security operations, delivering an automated threat response solution to unify, orchestrate and automate key elements of incident response.
www.csginvotas.com

**eSentire**
eSentire® is the leader in Active Threat Protection solutions and services, the most comprehensive way to defend enterprises from advanced and never-before-seen cyber threats.
www.eSentire.com

**MetricStream**
MetricStream is the market leader for integrated Governance, Risk, and Compliance (GRC) Management Solutions that enable organizations to deliver better business performance.
www.metricstream.com

**Okta**
Provide secure identity management and single sign-on to any application, whether in the cloud, on-premises or on a mobile device for your employees, partners and customers with Okta.
www.okta.com

**Tenable**
Tenable Network Security provides continuous network monitoring to identify vulnerabilities, reduce risk and improve compliance. Our family of products includes SecurityCenter Continuous View™, which provides the most comprehensive and integrated view of network health, and Nessus®, the global standard in detecting and assessing network data.

Registration and pricing

3 easy ways to register

Web: gartner.com/eu/security
Email: emea.registration@gartner.com
Telephone: +44 20 8879 2430

Gartner Clients
A Gartner ticket covers both days of the Summit. Contact your account manager or email emea.events@gartner.com to register using a ticket.

Group Rate discount
Maximize learning by participating together in relevant sessions or splitting up to cover more topics, sharing your session take-aways later.

Complementary registrations:
- 1 for every 3 paid registrations
- 2 for every 5 paid registrations
- 3 for every 7 paid registrations

For more information, email emea.teamsend@gartner.com or contact your Gartner account manager.

WHY ATTEND A GARTNER EVENT?

- Build a successful strategy
  • Get validation from Gartner analysts
  • Meet with suppliers to support your tactical planning
- Expand your peer network
  • Innovate and problem-solve with like-minded peers
  • Join the largest, most influential network of its kind
- Grow in your role
  • Get content and solutions that are most relevant to you
  • Lead more effectively — and develop your team

WHAT MAKES GARTNER EVENTS UNIQUE?

- Our analysts
  • Analyst-led presentations
  • Analyst one-on-one private meetings
  • Analyst-facilitated roundtables
- Our research
  • 100% independent and objective
  • Proven and reliable
  • Relevant to your role
